2020

ANNUAL ACTIVITY REPORT

WECODE PLATFORM

WHAT WE DID IN 2020

WECODE PLATFORM

2020 WAS A TOUGH YEAR FOR ALL OF US DUE TO COVID 19 LOCKDOWNS AND RESTRICTIONS. HOWEVER, WE TRIED TO DO SEVERAL ONLINE ACTIVITIES WITH OUR FOLLOWERS THOSE WHO THINK A CAREER IN THE FIELD OF IT. WE SHARED OUR EXPERIENCES, KNOWLEDGE, AND PERSPECTIVES IN THE CONTEXT OF EMERGING TECHNOLOGIES IN VARIOUS ASPECTS OF IT.

LET'S HAVE A LOOK AT WHAT WE DID IN 2020 AS WECODE PLATFORM

COURSES

1. INTRODUCTION TO PYTHON:

We organized an "Introduction to Python" course which took place for 2 months. The topics of the course were: "Foundations of the Python programming language" and Basic programming examples in Python". A total of 10 participants successfully completed the course.

2. ALGORITHM AND DATA STRUCTURES:

We completed a 3-month "Algorithms and Data Structures" course and as a continuation of this mentioned course, we started "Java Programming Language" course. These courses prepared in Turkish. We had 30 participants from Turkey, Europe, and Canada.

3. INTRODUCTION TO CODING:

We completed an "Introduction to Coding" course with over 20 students living in Finland who have immigrant backgrounds.

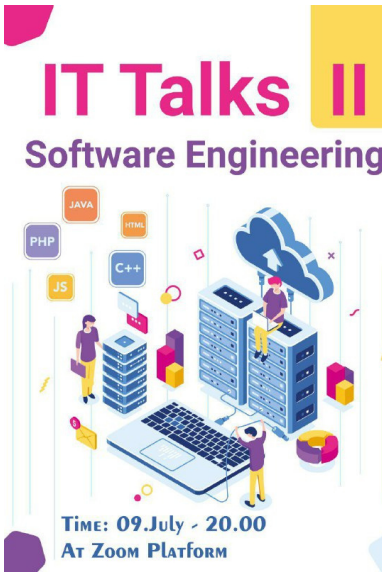

WEBINARS

I. IT TALKS:

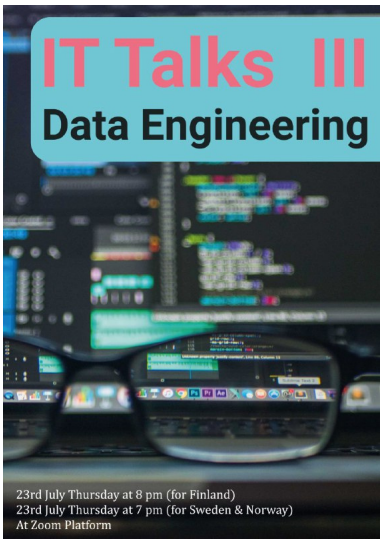

Under 'IT Talks' title, we organized 10 webinars in which our specialists from different fields of IT introduced their fields and gave guidance to participants who think of a career in the field of IT, in order to help them to consider which IT sector would fit them the best. You can find below the topics of our 'IT Talks'

IT TALKS 1:
SOFTWARE ENGINEERING PART 1

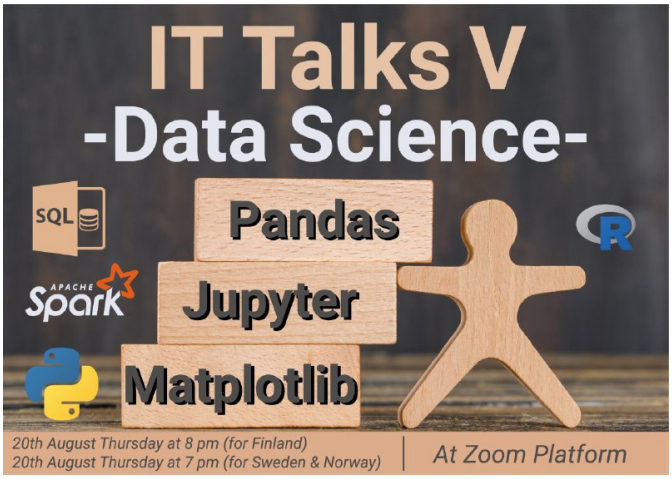

IT TALKS 2:
SOFTWARE ENGINEERING PART 2

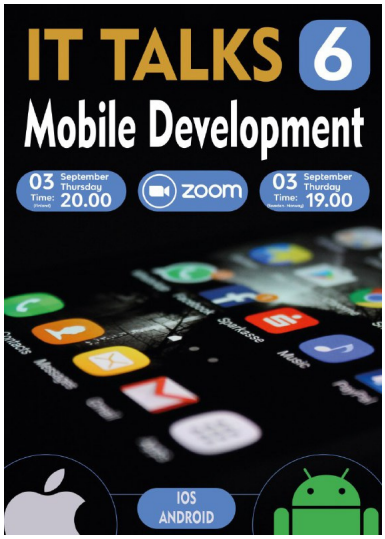

IT TALKS 3:
DATA ENGINEERING

IT TALKS 4:
WEB DEVELOPMENT

IT TALKS 5:
DATA SCIENCE

IT TALKS 6:
MOBILE DEVELOPMENT

IT TALKS 7:
UIX

IT TALKS 9:
AUTOMATION TESTER

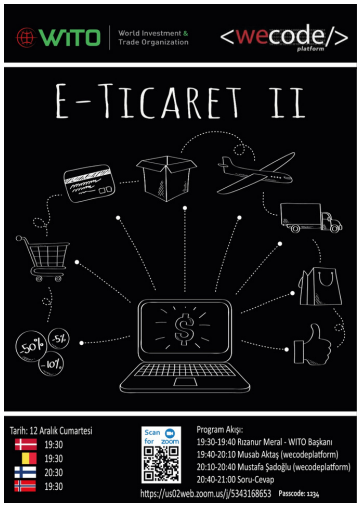

IT TALKS 8:
CYBER SECURITY

IT TALKS 10:
JOB INTERVIEWS

2. E-COMMERCE WEBINARS:

Our e-commerce specialists organized several online training programs to give brief information about the technical part of building e-commerce websites and challenges for those who plan to be an e-commerce entrepreneur. In the webinars that we prepared with WITO (World Investment & Trade Organization), we had over 500 Turkish-speaker e-commerce enthusiasts from all over the world from Australia to Scandinavian countries.

PROFESSIONAL SUPPORT

1. MARKETIM.FI:

marketim.fi

In 2020, we built a website named 'marketim.fi' and published its Android App named 'Marketim' on Google Play Store. On the website and in the app, users can search and find over 1000 'halal' products that can be found in Finland's markets. We actively work on expanding our database by adding more 'halal' products.
https://marketim.fi/

2. WEBSITES MAINTENANCE:

Our Web Development specialists built several websites for NGOs and platforms as well as took care of those websites' updates and maintenances.

'PLATFORM' AFFAIRS

1. ARTICLE PROJECT:

Our project writing IT-based articles for being known Worldwide as "WeCode Platform" has been continued. The articles written by our IT-developers have been published on wecodeplatform.com and they have already reached up to 40.

2. ADVANCED IT TOPICS:

As developers who constitute "Wecode Platform", we continue to run sessions where each one of us presents an advanced-level IT concept related to the presenter's field.

3. "DIGITAL LITERACY" PROJECT:

We started establishing a new project in which goal is to bring immigrants who have recently moved to Finland into "Digital Literacy".

Thank you for your interest!
Happy new year!
